- For industry clients
- Constant evolution and updates
- Including two trade collections
 - Formica®Unilin
 - Essentia

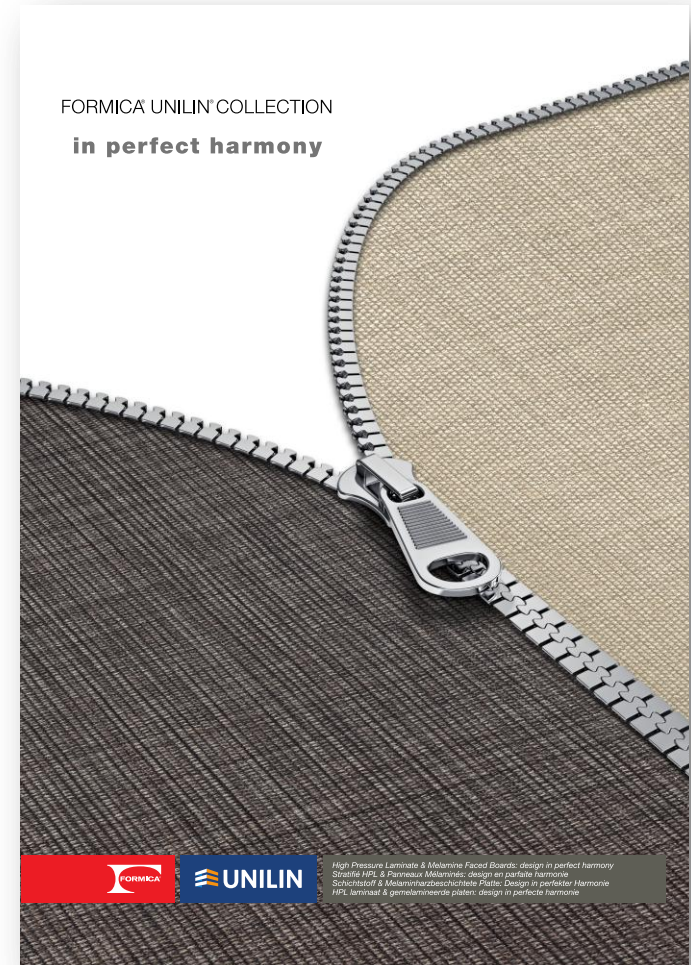

96 contemporary colours and designs

High pressure Laminate &
Melamine Faced Boards: design
in perfect harmony

- Formica® High Pressure Laminate (HPL) for demanding horizontal and vertical applications in areas subject to high wear and impact and in environments with high humidity.
- Unilin Melamine Faced Boards for furniture, verticals and other interior applications.
- A complete programme of matching edging to ensure a perfect finish.

essentia

DIVISION PANELS

20 beautiful and contemporary decors.

Unique size: 2500*1250mm

This means boards that are easier to handle, process, stock and transport.

Matching edging tape for all decors:

- 1mm ABS for a modern finishing of edges with a high level of protection
- Preglued melamine for an easy finishing of edges with a moderate level of protection

Matching surface finishes for each decor:

Topmat (BST), Soft Pearl (CST) and Pearl (TST)

All decors are also available **from stock as shelving (2500*400/600mm)** in the UniSHELF collection.

All our UniDECO boards **on stock are** PEFC certified

ClicWall®

DIVISION PANELS

ClicWall® is the latest wall-cladding system from UNILIN.

- Floor-to-ceiling panels 60 cm wide on an MDF base
- The patented **Uniclic® system, developed by UNILIN, allows for swift and easy panel installation, without visible seams.**
- The accessories needed for an impeccable finish.
- Wide selection of colours and designs.
- Also available in sheet material for made-to-measure furniture.

In stock and locally available from specialised distributors

CLIC WALL®

ClicWall® versus
Traditional wall system

ClicWall® DECO

- ClicWall® panels with paint grade layer
- Finish
 - Paint
 - Wall paper
 - Textile sheet
 - Digitale print!
- Accessoires: paintable profile and skirting boards

Applications

paint

print

textile sheet

wall paper

Based on the Uniclic® technology, the vast specialist knowledge we have accrued, strict quality standards & high-tech knowhow, UNILIN now developed its very first **furniture collection: Didit Click Furniture.**

A furniture collection that can **be assembled without any tools.**

The material in itself forms the connection so that there are **no more external fittings** required. Result:

- **Radical simplification** of the assembly
- **Drastic time gain**
- **Strong, high-quality connections**

A piece of furniture that you can assemble in the blink of an eye, **totally different** from any other RTA furniture.
